

Eagle Adventist Christian School & Preschool Newsletter October 8, 2021

SCHOOL CALENDAR

- Fridays Hot lunch \$4
- September 20-October 8 Map Testing
- October 11-13 Outdoor School 5th-8th Grade Camp Ida-Haven
- October 15 **Memorial Service for Myrna Howie
(Preschool closes at 12:30pm, Elementary at 2pm.)**
- October 18-19 **Teacher In-Service-No School for Grades 1-8th**
- October 25 Last day to turn in orders for wreaths. Funds will go toward a kitchen remodel.
- October 25-29 Fall Week of Prayer

Shop with the Sheriff unites deputies and public safety employees with local disadvantaged children for a special day of shopping. Each child is guaranteed new shoes, several outfits of winter clothing and a few toys for under the tree. Children and families will be carefully selected and screened by a committee of local law enforcement officers to reach those most in need. Approximately \$200 will be spent on each child. Our goal is to sponsor as many children as possible through the support of donations from our citizens and businesses here in Ada County. **Eagle Adventist Christian School will be collecting funds up until Dec. 15th for this project. You can give by turning in a check or cash to the office or your child's teacher.**

Finding out about glow in the dark...

Preschool News

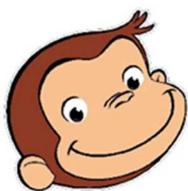

This week we read the story of Jonah and the Big Fish. The kids really enjoyed the different stories we read. On Friday we finished it off with a movie about Jonah.

We have been practicing recognizing the letters that start everyone's names and learning to spell our names. We are learning numbers in sign language as we count the calendar days.

Next week we will be starting a new preschool curriculum. I am excited as it has some fun songs to learn, we will learn our memory verses in sign language and I think the kids will enjoy the themes and stories. We also will be starting share next week also! Have a wonderful weekend as we welcome fall to the valley!

Curious Kinders News

This week we read the book Me on the Map and learned about maps of our room, house, city, state, country, globe, and solar system. We looked at different homes for animals and people around the world. The students got to see pictures of the different planets in our solar system, and they painted their own solar system. It will come home next week. It's amazing how God created not just our planet, but our solar system and how He placed our planet in the perfect spot from the sun so we wouldn't burn up or freeze. The students also learned about the different phases of the moon and counted stars in a few of the constellations. We covered the letters I & J and the number 10 and reviewed counting up to 10 with manipulatives and stickers.

For share time next Friday, the students will be sharing their favorite career that we have covered during the week and why.

Have a great weekend! Mrs. Powell

Mrs. Davidson's Classroom

We have had a good week, learning lots about faith vs. fear and that God does not want us to be afraid but to trust in Him. That is a great reminder these days!

We practiced our kicking, trapping, and punting skills in P.E. and in social studies we learned about Ancient Greece. On Friday for art we worked with symmetry and did name reflections. Have students look for examples of symmetry in the world around them. The students have also enjoyed the return of math drills. They are working hard to memorize their addition facts so they can pass each drill.

Please remember that we have a teacher in-service coming up on October 18-19; there will be no school for elementary students (grades 1-7) those days.

Mrs. Messecar's Classroom

The weeks seem to be going faster all the time. This is the first week that all of our students have been in class for the entire week! Between illness, travels and moving to Idaho, until last Monday they had not all met each other. They are doing so well with interpersonal relationships. They are all great kids.

The 5th-7th grade students have been making preparations for their Outdoor Camp which begins next Monday. Please pray for us as we set out to explore God's great outdoors. Our Bible class has been exploring and telling the story of Satan's fall and creation.

We are starting our lesson on the Industrial Era in the USA. The students have enjoyed exploring the maps in their Social Studies books to discover where things are made, mined, or grown. They were surprised to see that in the late 1800's to early 1900's Idaho didn't have any manufacturing contributions to the United States. They were able to see that Idaho's contribution at that time was silver and gold which was necessary to assist in the development of all the industries elsewhere.

Everyone now is finished with MAPs testing for the fall window. Yeah!
