Piano Recital for the piano students will be at the Meridian Seventh-day Adventist Church, 1855 N. Black Cat, Meridian, ID. All are welcome to come see what the students have accomplished this year.

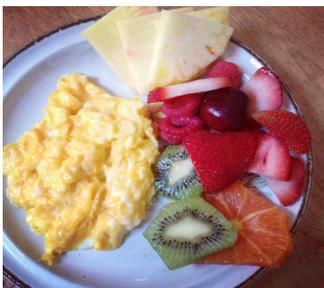

Other events

For security purposes, other events will be listed on Brightwheel. Make sure you check the Brightwheel app. Calendar or the calendar in the school hall.

NOTE:
Those that have not turned in registration paperwork for next year, will be charged the full amount of registration. Please get your paperwork in this month to take advantage of the discount.

Track & Field Day was fun!

9 Health Tips for Parents from familydoctor.org
Eating better (for children and families) Tips 3 & 4

- Eat together as a family as often as possible.
- Take time eating, and chew slowly. It takes 20 minutes for the brain to tell the body that you are full.

Teacher Martha's Class

Mom's are amazing! This week we made a couple of projects to show our mom's just how much we love them and are thankful for them! We hope you like your gift!

We have started practicing our songs for the year end graduation program. All kids will be in the program even if they don't graduate.

Thursday, while the older kids were off campus doing track and field day, we had our own field day! All the kids attempted 10 activities and earn a token for trying out the new skill! We did 400 & 50 meter race, shuttle run, soccer kick, basketball, relay race, standing long jump, obstacle course, hula hoop and jump rope. The kids did awesome and attempted every task with pride!

Have a wonderful Mother's day weekend! And a special thank you for the sweet and thoughtful teacher appreciation gifts.

Curious Kinders News

Wow! Thank you all so much for your kindness to all of us this week. We are so blessed to have the opportunity to share Jesus with your kids and teach them for the year. Thank you for sharing them with us. We began a new unit this week. We will be learning about different places in the 7 continents for this unit, and we will learn about missionaries of the past that have made a difference in those areas. This week we learned a little about Mexico in North America and different places in Europe. We have focused on learning how to read color words, munched on cereal while doing math, completed our phonics drawers and are now working on our little readers. On Thursday we had track and field day and had fun with all the different activities in the gym. It was a full week!

Thank you all for your wonderful support and sharing your children with us,

Mrs. Davidson's Classroom

The highlight this week was track and field day on Thursday. My students got to join the 1st-4th graders at our sister school in Caldwell for a fun day of outdoor activities such as relay races, kicking soccer balls, pool noodle hockey, hula hooping, jumping rope, and more.

We finished our unit on Generosity in Bible this week and our soccer unit in PE. In math we're working on shapes, telling time, and division. We also started our last reading unit this week.

Thank you for all of the lovely and thoughtful gifts for teacher appreciation week this week! I feel very loved. I wish all the moms a Happy Mother's Day this weekend!

Mrs. Messecar's Classroom

We spent quite a bit of time this week practicing for Track and Field. Students did very well. Thanks to everyone who practiced with their students at home. We don't have the final results quite yet so don't know how well we did, but Miss Natalie was an awesome runner that appears to have taken second place in several events. Regardless of who won, we all had fun.

There was a lot of studying in math, reading and science. Bible again was a very interesting experience with our discussion of our relationship with God. No matter what people think about us, once we know God we need to tell others about Him. We will be rejected on occasions, is it really us that is being rejected, or is it God. It's sad when that happens, but our job is to be seed planters. God will take care of it from there.
