May 30—June 3

Memorial Day—CLOSED  
Preschool / Kindergarten/ Childcare CLOSED

Other events

For security purposes, other events will be listed on Brightwheel. Make sure you check the Brightwheel app. Calendar or the calendar in the school hall.

**Tuesday, May 24 at 7:00** we would like you and your family to come join us at the gym for a Bible study. One of your students asked if this couldn't take place and after some discussion we decided to start it. Students in the 4th-6th grade class talked about topics they would like to learn more about. We haven't decided yet, but you may help us at that time. It will be very informal, just learning what the Bible has to say about the topics that we choose. It will be our textbook.

On Tuesday night we will be discussing a day and time that works best for everyone, a topic that would be of most interest to the majority—especially the students, and just get better acquainted. Please come join us if you want to know more about our amazing God!

**NOTE:**  
Those that have not turned in registration paperwork for next year, will be charged the full amount of registration.  
Please get your paperwork in by May 31st to take advantage of the discount.

**Preschool & Kindergarten Field Trip to Camille Beckman Factory.**  
We had a great time seeing and smelling lotion, soap, etc.

### 9 Health Tips for Parents from [familydoctor.org](http://familydoctor.org) Eating better (for children and families) Tips 7,8,9

- Drink plenty of fluids. Choose water, low-fat or nonfat milk, and low-calorie beverages.
- Serve a variety of foods.
- Serve food in small portions.

### **Teacher Martha's Class**

We are counting down the days until summer begins! I cannot believe how fast this year has gone; but I am so happy for all of the memories I have from spending the days with your kids!

We were able to take a field trip to Camille Beckman. The kids loved to see how the lotion was made from big barrels of ingredients to the cute little jars of lotion with a rose on top. We all enjoyed smelling the different kinds of lotions and seeing all the steps along the way to produce the products. They were spoiled with the little gift bags of goodies. There is a gift shop you can visit, so stop by and support this local business.

We have been working on number recognition and patterning this week. The kids are doing a great job on knowing their numbers. Most of the kids were able to complete our worm project, which is displayed in the hall, with little or no help. Patterning is always a favorite. Add some stickers and it becomes a favorite activity!

We are in the final stages of practice for the year end program. The kids are doing so well with the songs...I trust you will all be proud and have a few laughing moments!

### **Curious Kinders News**

Wow! One more week! This coming Wednesday evening at 6:30 we will celebrate our Curious Kinders and Pre-School classes with our graduation program. The binders that you provided at the beginning of the school year will be available to pick up and take home. Everything in the binders were put in chronologically, so you can see how your child has grown throughout the year. Our last day of school will be May 27.

This week we enjoyed our field trip to Camille Beckman, reviewed numbers 1-100, worked on reading and forming words from our phonics unit, and learned about the jungles of Asia. We are reading the children's version of Jungle Thorn, and the kids are enjoying seeing all the different animals that live there as well as how a little girl learned how to rely on God during a difficult time. God is so good to help us through each time we ask Him to.

### **Mrs. Davidson's Classroom**

This was a good week and we had a lot of fun playing football in PE. We also learned about cool rocks in science. We tried papaya and mango on Thursday. In math we are learning about shapes and counting money. The students are excited about school getting out soon - only one more full week!

Please refer to Brightwheel for information regarding the last week of school. Also, we are still looking for a few volunteers to help with Parktacular on June 12. Let me know if you are available to help that day between 1:00-7:00 PM. Have a fantastic weekend!

### **Mrs. Messecar's Classroom**

This has been a fun week exploring Jesus miracles-feeding the 5,000, walking on water, Jesus talking to a Samaritan woman whom no Jewish man would ever be caught dead talking to, and

Nichodemus, who was terrified of any Jew seeing him talk to Jesus. We found out that because Jesus had the Holy Spirit working in Him, He was able to reach each person He encountered. He knew their needs and how to best appeal to them. We discovered that if we have the Holy Spirit in us, He will give us that same ability. That's pretty amazing!

We are trying to wrap up the year in completing everything in each subject. It's been a week of hard work and fun. We have been exploring earthquakes and volcanoes in Science, even talking about the earthquake we had here in March of 2020 and where it would have fallen on the Richter scale.
